

Dear Senator Pearson,

Skykomish Valley community is very much concerned and worried that WA State Laws [Chapter 35.88 RCW "Water Pollution - Protection From"](#) and [RCW 70.54.010 "Polluting Water Supply - Penalty"](#) are being violated. Weyerhaeuser Corporation is executing a large toxic aerial spray in our watershed September 14-23, 2016 [FPA#2815270](#) potentially contaminating our drinking water sources with [many toxic chemicals](#), including ingredients of Roundup. You can find more information at [Chemical Spraying](#) page of our website [svena.org](#).

RCW 70.54.010 clearly states: Every person who shall deposit or suffer to be deposited in any spring, well, stream, river or lake, the water of which is or may be used for drinking purposes, or on any property owned, leased or otherwise controlled by any municipal corporation, corporation or person as a watershed or drainage basin for a public or private water system, any matter or thing whatever, dangerous or deleterious to health, or any matter or thing which may or could pollute the waters of such spring, well, stream, river, lake or water system, shall be guilty of a gross misdemeanor.

We respectfully request that you look into this alarming issue as soon as possible and find a way to protect public health and safety of residents - children, adults and seniors - in the Skykomish River Valley from deadly poisoning by toxic chemicals and to enforce WA State Laws Chapter 35.88 RCW "Water Pollution - Protection From" and RCW 70.54.010 "Polluting Water Supply - Penalty".

Please let us know at your earliest convenience how you can help to stop contamination of our watershed and when we can meet to discuss again this urgent matter. We hope to see your response soon.

Sincerely,

Inessa Pearce
President
SVENA (Skykomish Valley Environmental & Economic Alliance)
